

International League of Dermatological Societies
Skin Health for the World

Certificate of Appreciation Nomination Guidance and Criteria

The closing date for nominations is 12 noon Tuesday 3 April 2018

The International League of Dermatological Societies (ILDS) is a unique non-governmental organisation which promotes the global advancement of dermatological care, education and science. Bringing together over 160 member societies from more than 80 countries worldwide, the ILDS is collectively able to draw on the expertise of more than 100,000 dermatology specialists around the world.

The ILDS, as part of its work in global dermatology, aims to recognise dermatologists and others in the field of dermatological care who have made an outstanding contribution to improving the outlook for people with skin diseases. The League has a specific ILDS Awards Committee that considers recommendations for individuals which might receive one of our Awards.

One of these Awards is the **ILDS Certificate of Appreciation**. These Certificates are awarded annually to a number of individuals and are presented to the awardees at various national and international meetings.

This is an opportunity for your Society to nominate individuals from your own Society whom you consider might be suitable for an ILDS Certificate of Appreciation. You can nominate up to two persons, whom you think might be eligible.

The Certificates of Appreciation aims to recognise dermatologists and others in the field of dermatological care who have made an outstanding contribution in one of the following categories:

1. International Leadership

These are dermatologists that have shown international leadership which has made an impact on global health policies and practices, furthering of cross-border research, education and empowerment of dermatologists, their societies and the public.

2. Humanitarian Dermatology

Those that have been undertaking their work in a selfless, humanitarian and not-for-profit manner to improve the skin health of people in underserved areas of the world.
