Our Ethos

Introducing the Concept...

Gurukul educational system is a traditional schooling method in India with students living near their Gurus learning the skills to face life.

ACSI Gurukul intends to provide an environment which rekindles the innate sense of inquiry present in every delegate, equipping them with the skills to enhance their practice.

Our Curriculum

Learn Beyond the Textbooks...

Well thought out topics in the three different streams of Dermatosurgery, Aesthetics and Lasers will be dealt with in a structured and unhurried manner. ACSI Gurukul will be a 'no didactic lecture' program. All the sessions will be held in a single hall. All the sessions will be held in a single hall allowing the delegate to soak in the lessons without having to go back and forth.

Unique academic sessions like 'delegate case presentation' 'grand panel' promises to make Gurukul Series an interactive session beyond par.

The nuances of the various surgical & aesthetic techniques will be discussed threadbare. The first episode of ACSI Gurukul Series will focus on select indications with inputs from experts in surgical & aesthetic fronts giving a practical and 360-degree view to the delegate. The discussions will be oriented such that it can be put into practice the very next day.

Our Gurus

Shaping Minds, Inspiring Futures...

Handpicked faculty from across the country will be handling the curated curriculum. Expertise over hierarchy would be the mantra for faculty selection. The stress is on delegate learning rather than expounding facts & figures.
